Description

The Roberts 630 mm professional flooring cutter is designed to deliver clean, accurate cuts in a range of flooring materials. Suitable for carpet tiles, laminate, parquet, engineered wood, vinyl, LVT, VCT, rubber and foam.

Its large cutting table supports longer floorboards, while the extendable handle provides additional cutting force. The cutter is suitable for making both straight and angled cuts, allowing flooring professionals to work quickly, efficiently and dust-free during installation.

- Suitable for a variety of flooring materials
- Cuts up to 630 mm wide and 16 mm thick
- For straight and angled cuts
