Description

The Roberts Electric Mixer 230 V is designed for professional use in flooring and preparation tasks. The powerful high-torque motor ensures efficient mixing, while the variable speed provides greater control when handling different materials.

- 230 V version
- Powerful high-torque motor for efficient mixing
- Variable speed for greater control
- Ergonomic handle for comfortable use
- Safety switch with lock-on function
- Thermal overload protection
- Supplied with Ø140 mm mixing paddle
- Includes carry case for storage and transport

Note: The R1012C requires 2× QEPBA4 4.0Ah batteries and 1× QEPCH1 charger, which are not included with the R1012C. Order RMSPECIAL for the complete set with 1× R1012C, 2× QEPBA4, and 1× QEPCH1.

Roberts Electric Mixer 1600 W 230 V

Art. nr - R10120

A suitable UK-to-EU plug adapter is required for the QEPCH1 charger when used within the EU.
