Description

The Roberts fitters toolbox is made for professional use. Its heavy-duty steel construction and hard-wearing finish make it ideal for daily use on site.

The toolbox features a removable storage tray and a built-in plate at the bottom for carpet seams. This plate serves as a flat, stable base or as a weight to keep seams securely in place during installation.

With robust latches, lockable eyes, a soft-grip top handle and recessed side handles, your tools stay safe and the box is easy to transport.

- Heavy-duty steel construction with durable finish

Roberts Fitters Toolbox
