Description

The Roberts Pro dual depth carpet knife is designed for professional carpet installers. The cutting depth can be easily set to two positions without using any tools, allowing you to adjust the knife according to your carpet's backing thickness.

Suitable for slotted blades with either rounded or straight ends, this knife provides an ergonomic comfort grip for greater control during cutting. The SWIVEL GRIP blade storage ensures spare blades are always within reach, while the magnetic blade holder secures the blade when open.

- Ideal for professional carpet cutting
- Two adjustable cutting depths
- Suitable for various carpet backing thicknesses
