## Description

Roberts spacers are designed for laying laminate flooring. They help maintain a consistent gap between the floor and the wall during installation, ensuring a neat finish.

The wedge-shaped spacers are easy to place and remove. The ribbed surface helps keep them in place during installation. These spacers are reusable and practical for multiple installations.

- For laminate flooring
- Helps maintain an even gap along the wall
- Suitable for glued and floating installations
- Wedge-shaped design for easy placement and removal
- Ribbed surface prevents slipping
- Reusable plastic design
- Packaged in 30 pieces
