Description

The Roberts Deluxe heat bond carpet seaming iron is purpose-built for professional carpet joining using heat-bond tape. Its low-profile design ensures comfortable handling, while the even heat distribution allows for optimal tape activation.

The built-in heat shield helps prevent overheating of the carpet backing. The non-stick soleplate is easy to clean, and its combed profile forms adhesive ridges for exceptionally durable carpet seams.

- Designed for carpet seams with heat-bond tape
- Low-profile for ease of use
- Consistent heat distribution
- Heat shield protects carpet backing from damage
- Non-stick soleplate for effortless cleaning
- Combed profile soleplate for extra strong joins
- Triple cord guide keeps the cable clear
- Cool-touch handle and front-mounted thermostat
- Adjustable temperature range: approx. 57°C to 218°C
