Description

Roberts 4-in-1 spacers are designed for use with vinyl, laminate, and engineered wood floors. They ensure the correct gap is kept along walls and doorways during installation, allowing your floor to expand and contract properly.

Thanks to their self-supporting design, these spacers remain firmly in place throughout fitting. They are reusable, making them ideal for multiple projects.

- Suitable for vinyl, laminate, and engineered wood
- Ideal for use along walls and door thresholds
- Helps maintain a consistent expansion gap
- Self-supporting design stays upright during installation

Roberts 4 in 1 flooring expansion spacers
