## Description

The Roberts extendable floorscraper is designed for easy removal of floor coverings and adhesive residues without bending or kneeling. The adjustable handle allows you to use this scraper for various floor tasks.

The hardened steel blade makes it easy to remove old adhesive, vinyl, carpet, tiles, and other types of floor coverings. The angled head ensures you can work under edges and in hard-to-reach areas.

- For removing old adhesive, vinyl, carpet, tiles, and other floor coverings
- Work upright without bending or kneeling
- Adjustable length for flexibility
- Hardened steel blade for intensive use
- Angled head for hard-to-reach areas
- Sturdy construction with locking mechanism
