Description

The Roberts GT extendable knee kicker is designed for professional carpet fitters seeking comfort and precision. Its wider head ensures even force distribution when positioning and stretching carpet.

The trigger release mechanism allows for easy length adjustment, so you can adapt the kicker to any working environment. The high neck fits easily over stretcher heads and tubes, and the central groove is ideal for adjusting a power stretcher head.

- Perfect for positioning and stretching carpet
- Wider head for improved force distribution
- Adjustable length with trigger release
