Description

The Roberts carpet tucker is designed for professional carpet fitting where precision and control are essential. Its lightweight nylon construction is ideal for use on delicate surfaces and helps to prevent damage to walls, skirting boards, tiles or metal.

The rounded handle provides excellent grip during use. The curved edge is practical for stairs, while the straight edge is perfect for tucking carpet into corners.

- Ideal for tucking carpet along edges and corners
- Lightweight nylon construction
- Helps prevent damage to walls and skirting boards
- Rounded handle for superb grip
