Description

The Roberts laser level is designed for professional applications where precise alignment is crucial. It features 2, 3, or 5 lines to quickly and accurately set horizontal and vertical reference lines.

The self-levelling function ensures accurate work, while the out-of-level warning helps prevent alignment errors. The 360° rotatable base with fine adjustment allows precise positioning of the laser. The included carrying case makes storage and transport easy.

- Self-levelling cross line laser for professional use
- 2, 3, or 5 laser lines for various alignment tasks
- Horizontal and vertical laser lines
- Bright green laser
- Automatic levelling with out-of-range warning
- 360° rotatable base with fine adjustment
- Suitable for indoor and outdoor use
- Anti-shock function

- Can be used with a tripod
- Supplied in a carrying case for storage and transport

Note: This product is CE certified. The included charger has a UK plug. A suitable UK-to-EU plug adapter is required for charging within the EU.
