Description

The Roberts vinyl seam roller has been developed to ensure neat finishing of seams in vinyl flooring. The polished steel roller runs smoothly on ball bearings, helping to achieve a consistent finish when pressing the seams.

The angled soft-grip handle provides excellent grip and greater control while working. Its rounded outer edge helps prevent scratches or damage to the floor or skirting boards.

- For pressing seams in vinyl flooring
- Angled soft-grip handle for improved grip and control
- Rounded outer edge helps avoid scratches and damage
