Description

The Roberts extendable floor roller has been developed to smooth out and press down floor and wall coverings. The non-marking, segmented roller helps to distribute pressure evenly, even on slightly uneven surfaces.

The telescopic handle provides extra reach and control while working, and the additional handle offers enhanced leverage to apply extra pressure where needed.

- Suitable for vinyl, carpet, skirting strips and wall coverings
- Non-marking, 180 mm segmented roller
- Ensures even pressure distribution on uneven surfaces
- Extendable handle for greater reach

Roberts Extendable floor roller

Art. nr - R10975

- Secondary handle for increased leverage
- Ideal for professional floor and wall finishing

Roberts Extendable floor roller
