Description

Roberts Duckbill Shears are designed for professional carpet work where precision and controlled cutting are required. These shears allow you to trim loose threads and tufts from all types of carpet with ease.

The offset handle and specially shaped blade let you work close to the surface without cutting into or damaging the carpet. Made from high-quality carbon steel, the shears offer durable, strong cutting performance.

- For cutting loose threads and tufts
- Suitable for various types of carpet
- Special blade design for precise finishing
