Description

STK 950 double stick tackifier is a water-based tackifier designed for double stick carpet installations. The adhesive remains tacky, making it ideal for securing underlay to the subfloor, after which the carpet can be bonded to the underlay.

This tackifier is solvent-free and low odour, ensuring a pleasant and controlled application for professional carpet installation projects.

- For double stick carpet installations
- Ideal for fixing underlay to the subfloor
- Water-based tackifier
- Solvent-free and low odour
